

Over the years I've discovered that high-quality, precise designs can transform environments, and this is where my passion thrives. I view design as a crucial driver for enhancing user experiences and achieving business objectives.

I have a vast experience in Marketing and Brand Design, creating and optimizing visually engaging social media ads, landing pages, email campaigns, responsive websites, printed assets, presentations using Adobe Creative Suite and Figma.

I'm used to work collaboratively with cross-functional teams, in a fast-paced environment and multitasking.

I am a driven and quick learner, constantly seeking opportunities to expand my skills, share knowledge, and grow professionally.

Work Experience

Penguin Strategies 2016 - 2024
Senior Marketing Designer, Brand Designer, UI/UX Designer

- Directed and worked on design projects ensuring they are in line with brand guidelines, concepts, briefs, and deadlines, from end-to-end.
- Capability to approach problems with both creativity and structure, delivering innovative and visually engaging ideas aligned with specific creative briefs.
- Created user-centered designs for key accounts like NetApp, Ceragon, Guardknox, Sony Semiconductor and Siemens AM. Projects include newsletters, websites, landing pages, paid campaigns for multi-channel lead gen campaigns.
- Optimized marketing campaigns results by analyzing metrics, implementing improvements and driving conversions

Duma (acquired by Penguin Strategies) 2015 - 2016
Creative Director

- Oversaw design of all client projects across both digital and traditional media.
- Managed delegation of design tasks, including websites, presentations and booths for events.

Comverse Technology, Inc. 2014 - 2015
Graphic and Web Designer

- Designed minisites for products, events, intranet systems and newsletters.
- Created design for white papers, brochures, PowerPoint decks, email templates and internal documentation.

May Studio 2010 - 2013
Graphic and Web Designer

- Created branding concepts for companies such as Assuta Hospital and Epstein Engineering, including logotypes, brochures and exhibition booth design.
- Worked building WordPress and HTML websites.

Freelancer 2001 - 2010
Graphic and Web Designer

- Created branding, logos, minisites, blogs and social media-related collateral.
- Worked at smaller studios as an in-house designer, both in Brazil and Israel, including design studios, restaurants, engineering and finance companies.
